

Chalet Antoinette St. Anton, Austria

What we love...

We love the way Chalet Antoinette combines chic modern penthouse apartment with luxury catered ski chalet. Having access to the swanky hammam and sauna is a bonus too.

Look up as you step into Chalet Antoinette to admire the vaulted, double-height ceiling, then check out the breath-taking views. Yes, this magnificent penthouse eyrie is all yours for the duration of your stay. All you have to do is relax in the warmth of the traditional Austrian wood burner as a team of staff takes care of everything.

Chalet Antoinette is on the top floor of an exclusive chalet building, along with two other luxury apartments. Nestling in the sought-after enclave of Nasserein, it is right beside the ski lift and nursery slopes, and a 10 minute walk from the heart of St. Anton. If you can tear yourself away from your chic and cosy nest, there's plenty of exuberant après ski on offer.

Coming home to Chalet Antoinette is a real pleasure. Just leave your skis and boots in the shared ski room on the ground floor then whiz up in the lift to your penthouse lair. Perhaps later you might descend again to enjoy the luxurious Hammam and

sauna which you share with the other apartments.

Delicious breakfasts and evening meals appear magically on your dining table. Ski tips and local knowledge are dispensed by your experienced ski guide (first two days) and the housekeeper visits every day. Leave the admin to your concierge and catch a lift across town with the shared in-resort driver service.

Chalet Antoinette is all on one floor, with airy living space in one section and five en-suite bedrooms clustered in another. One of these is a four-man bunk room with TV and DVD player – a perfect den for the kids. The living room also has a separate TV area so everyone has space to spread out.

Whether you are into interior design or not, you are bound to love the hefty old wooden beams, natural stone and sumptuous fabrics used liberally throughout the chalet. This is a truly luxurious penthouse retreat.
