

Chalet Du Vallon Meribel Village, France

What we love...

We love the living room with its double-height ceiling. It is a really amazing place to relax or socialise.

Some ski properties offer a 'home from home'. Chalet du Vallon offers something better than home. Unless, of course, you already live in a house with a steam room and entertainment room on the side of a mountain...

Du Vallon really is something special. The traditional building offers spacious living accommodation that means you and your family or friends can enjoy each other's company without feeling on top of one another.

From the large balconies with seating areas to enjoy the view, to the private steam room, to the comfy entertainment room complete with DVD library, it's a wonderful space to both create shared memories and do your own thing, too.

The double-height lounge provides a gloriously light area for you to

gather in for drinks or relax in over afternoon tea and cakes, while admiring the sublime view. Rustic wood furniture and contemporary soft furnishings make this a really laid-back room to relax in, and being set up a little higher than the town gives it a peaceful atmosphere, too.

However, the beauty of this location is that although it feels quiet in the chalet you are only really moments away from the centre of the village and two minutes' walk from the chair lift.

Off-piste, there is everything you could possibly wish for to fill your time at the chalet – have a group film night in the entertainment room, book yourself a massage and enjoy the steam room, or simply get out on those beautiful balconies and take in the majestic mountain views over a glass of something bubbly.

Chalet Du Vallon

Kids

Chalet Du Vallon is a family friendly property, offering plenty of space for children to roam about and explore.

The chalet's central location also make this an ideal base for families with children, being a short walk into the village centre and the Golf chairlift. There is also a complimentary shuttle service to Meribel Centre in the morning for ski schools, so getting little ones to lessons will be a doddle.
