

Chalet Griffin St. Anton, Austria

What we love...

We love the sophisticated cinema room with leather button-back armchairs and settees for a cinema with a hint of the Gentlemen's Club about it.

Designed by prestigious German interiors architects, Chalet Griffin is a luxury ski chalet in St. Anton with a bit of a difference. Modern in a cosy, welcoming way; comfortable yet stylish and sophisticated, this chalet is a real gem.

Unlike many chalets for large groups, this property has several smaller seating areas, so it retains an intimate and cosy feel at all times. There's plenty of room to eat all together at the large dining table and enjoy a movie together in the cinema room. For cosy chats over a drink and a quiet catch-up on the day's events with a friend, you can't beat the privacy of the small clusters of armchairs around fireplaces and comfy sofas in the library corner.

Five supremely comfortable bedrooms are set out over two floors. Some have balconies and dressing areas, and all are unique in their own way. Each has a spa-style en-suite for some low-key pampering at the beginning and ending of each day, too.

And if pampering is high on your agenda, this luxury chalet with spa area on the ground floor is ideal. Here you'll find a steam room, sauna, gym and space to enjoy a massage or facial, too, should you wish.

With fabulous views out onto the slopes, as well as roaring fires within, the outlook is equally appealing both inside and out and there's no cosier place to enjoy the great outdoors than from a squasy armchair in front of the fire at Chalet Griffin.
