

Chalet Zermatt Peak

Zermatt, Switzerland

What we love...

Chalet Zermatt Peak is simply awesome – one of the hippest chalets you will find in the Alps. We love the spectacular indoor/outdoor Jacuzzi pool and the stunning glass-roofed master bedrooms, so guests can lie in bed and gaze at the stars.

Chalet Zermatt Peak is what the term 'wow-factor' was invented for. Every detail impresses and the interior design is one of the slickest in the Alps. No expense has been spared to create something really special.

The experience starts at the entrance, tunnelled into the rock, reminiscent of an ultra-cool Bond villain's lair. Even the ski room has stylish ambient lighting and a surround sound TV system. Up the lift to the vast open plan living / dining room and you are met with jaw-dropping views over Zermatt to the Matterhorn through the floor to ceiling windows which open onto a spacious terrace.

The furnishings and finishing touches throughout the Chalet Zermatt Peak are superb, with walnut floors, Brazilian stone and Italian Marble, Murano crystal chandeliers together with state-of-the-art technology.

The über-cool glass-walled wellness area is spectacular and the centrepiece is the indoor/outdoor Jacuzzi pool. Relax in the Finnish (dry) or Swedish (wet) sauna and steam room or work out in the gym before letting the expert masseuse soothe those tired muscles.

And as you would expect of a chalet of this standard, the service is also exceptional. Nothing is too much trouble for the team of professional staff.
