

Villa Saint Martin

Provence, France

What we love...

We love the 24-hour room service, allowing you to dine in the privacy of your own villa without lifting a finger!

This luxury Côte d'Azur villa with views of the Mediterranean is a real retreat from the world. The main living space is restful and elegant, with just a hint of English country manor house about it in the floral patterns and traditional pieces of furniture. But if you're fooled, you won't be fooled for long. As soon as you turn and look through the French doors, that clear turquoise ocean is unmistakably Med.

Wrought-iron spiral stairs lead to two of the three luxury suites. All are light and airy, each with an ensuite white marble Carrara bathroom.

Back on the living floor, a wonderful professional kitchen will impress

food fans who will enjoy cooking there. But if your break is all about the rest and relaxation you can hire a private chef for the week or enjoy the exciting menus on offer at the two restaurants in the hotel, not far away.

While secluded, one of the main benefits of the villa must be the proximity of this spa hotel in the same grounds. It has wonderful facilities which, as guests of the villa, you enjoy exclusive access to. But it must be said, when you're standing on your private terrace, a glass of something special in hand as the sun goes down over the olive groves and the sea, you feel you could be the only people in the world.
