

## Villa Cortesin Near Marbella, Spain

### What we love...

We love the private pool, with shady seating area nearby, and the fabulous golf course on site.

Traditionally beautiful, but designed with a contemporary feel, these light and airy luxury villas close to Marbella offers the best of both worlds. Surrounded by private gardens, the properties are private and quiet. Yet being located within the grounds of a five-star spa hotel means you can enjoy all that entails, too, from the wonderful golf course designed by Cabell Robinson, said to be one of the best in Spain, to the Michelin starred restaurant and exclusive beach club conveniently located just a five minute drive from these luxury villas. Relax on balinese beds or take a dip in the large pool, and when it comes to dining the beachfront restaurant offers the best in Mediterranean cuisine, whilst the bar offers the perfect spot to enjoy a cocktail at sunset.

The villas themselves have four spacious and airy bedrooms, including a lovely master suite on the first floor. The bedrooms are tastefully decorated in a contemporary rustic style, to feel cool and relaxing. Each ensuite bathroom is finished to equally high standards.

Downstairs, a smart but laid-back living space with huge sofas gives you somewhere to cool off in the heat of the day, or catch a sneaky siesta while your friends and family take themselves off to the spa. Just off the modern kitchen is a casual dining room with rough-hewn table and wicker chairs, perfect for gathering with your party to enjoy a few pre-dinner drinks, looking out over the shady terrace and private swimming pool beyond.
