

## Chalet Artemis St. Anton, Austria

### What we love...

We love the hip interior design, the stunning views, the retro cinema and the contemporary pool and spa - perfect for post-ski recuperation.

Chalet Artemis in St. Anton is a little unusual. You won't find any Alpine-style wooden beams here. Instead you find an ultra-stylish contemporary chalet that oozes minimalist cool. Think modern designer furniture, funky lighting and original art.

With over 500 sqm of space, this luxury ski chalet in St. Anton is huge and has six spacious rooms, a sophisticated open plan living/dining area and a superb wellness area on the lower floor.

Ready to entice you down from the mountain at the end of the day, the spa area features an 8m indoor swimming pool with jet stream flow, an indoor/outdoor hot tub and a sauna and steam room. There is also a dedicated private treatment

room to indulge in a daily post-ski massage to ease those aching limbs.

Take the lift to the sitting room on the top floor and recount adventures in front of the log fire and enjoy the delectable canapés and a glass of Champagne. Dinner in Chalet Artemis is a gourmet experience with courses expertly created by the private chef, accompanied by carefully paired wines from the extensive cellar, and professionally served by your chalet host.

Chalet Artemis is equipped with state-of-the-art technology including a Sonos integrated music system throughout, TV with Sky, Apple TV, Xbox and Wifi. There is also a 12-seater private cinema complete with extensive movie and game library – and even a popcorn machine.
